DETAILED ACTION

1. The amendment filed, July 12, 2004 is acknowledged. Claims 1, 12-15, 17, 32-38, 41-44 were amended by the amendment. Claim 10 was cancelled. Claims 1-9 and 11-44 are pending in this application. It is noted that for the canceled claims, Applicants left the claimed language for these claims. Applicants are requested to delete the entire claimed language to avoid any confusion with regards to the pendency of these claims.

Election/Restrictions

Applicant's election with traverse of the species HPMA, DAMA and proteins having coil-coiled structures as protein domain and insulin as the bioactive agent is acknowledged. A search was extended to the entire scope of the claim. No prior art was found for all of the species encompassed by the claims.

2. All rejection made in the previous office action are hereby withdrawn.

New Grounds For Rejections

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7, 9, 11-29, 31-44 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1654

The claims have been amended to recite “A composition capable of forming a stimuli responsive hybrid hydrogel comprising a polymeric network consisting essentially of a water soluble polymer crosslinked by a protein domain.” Since the claims recite that the composition is “capable of forming” the hydrogel, it is unclear as to the constituents of the composition. That is, does the composition contain polymer and protein separately or does the composition contain the polymer crosslinked by the protein.

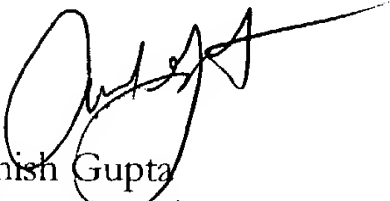

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
